PROFESSIONAL SUMMARY

Software Engineer with nearly 2 years of professional experience building and shipping production applications, with deep specialization in Flutter and Dart for cross-platform Android and iOS development. Skilled across the stack in REST API integration, state management (Provider, BLoC), and backend services including Firebase (Auth, Firestore) and Supabase. Delivered production HRMS, hospitality booking, and e-commerce systems with measurable business outcomes, and was promoted from intern to trainee within one month for consistently shipping production-ready work. Strong communicator and collaborator with a background in coaching and team leadership. Expanding into AI Automation and Data Science, including n8n workflow automation and RAG-based AI agents, to bring intelligent features into future applications.

TECHNICAL SKILLS

Languages: Dart, Python, JavaScript, SQL

Web Development: Node.js, Express.js, React, MongoDB, Angular

Mobile Development (Flutter Ecosystem): Flutter, Dart, Flutter SDK, Cross-Platform Development, Android, iOS, Flutter Widgets, Material Design

State Management: Provider, BLoC (flutter_bloc), Riverpod, GetX

Backend & APIs: REST APIs, Firebase Auth, Firebase Firestore, Supabase, Razorpay SDK, JSON Parsing, Push Notifications

UI & UX: Flutter Slivers, Responsive UI, Adaptive Theming, Dark/Light Mode, Localization (l10n), Custom Widgets

AI Automation: n8n, Workflow Automation, RAG Agents, LLM API Integration, Email Automation

Tools & DevOps: Git, GitHub, Android Studio, VS Code, Postman, Docker, GCP, SonarQube, CI/CD

Soft Skills: Leadership, Team Collaboration, Communication, Mentoring, Time Management

PROFESSIONAL EXPERIENCE

Flutter Developer Trainee – **Vishwaguru Infotech** *Pune, MH | Apr 2026 – Jun 2026*

- Promoted from intern to trainee within one month for consistently shipping production-ready feature modules
- Engineered responsive UI components using Flutter widgets and Material Design, matching product design specifications
- Integrated REST APIs to enable dynamic data rendering and backend connectivity across core app features
- Partnered with senior developers on sprint planning, code reviews, and bug triage to maintain delivery quality

Flutter Developer Intern – **Vishwaguru Infotech** *Pune, MH | Feb 2026 – Mar 2026*

- Developed a full-featured e-commerce app covering onboarding, authentication, catalogue, cart, and payment flows in Flutter and Dart
- Implemented Firebase Authentication and integrated Razorpay SDK for secure login and payment simulation
- Designed an advanced scrollable UI using Flutter Slivers; added adaptive light/dark theming and l10n localization with Python automation
- Architected a clean API layer using structured JSON parsing and migrated backend connectivity to Supabase

Flutter Developer – **Centralogic Pvt Ltd** *Pune, MH | Mar 2023 – Apr 2024*

- Delivered a Leave Management module for a production HRMS platform with multi-level approvals, reducing manual HR effort by 40%
- Engineered a secure candidate assessment platform with anti-cheat mechanisms, supporting 500+ concurrent users
- Integrated 15+ REST APIs into a hospitality booking application to enable real-time reservation synchronization
- Optimized API response handling to reduce data parsing errors and improve application stability
- Maintained code quality through Git version control, peer code reviews, and Agile sprint delivery

PROJECTS

E-Commerce Mobile Application – **Flutter · Firebase · Supabase · Razorpay** *2026*

- Developed an end-to-end mobile commerce app with onboarding, Firebase Auth, product listings, cart, and Razorpay payment simulation
- Implemented Flutter Slivers UI, I10n localization, adaptive theming, and a Supabase backend with a clean API-driven architecture

Full-Stack E-Commerce Platform (MERN) – **React · Node.js · Express · MongoDB · Stripe · Razorpay** *2026*

- Built a full-stack e-commerce platform with a React frontend and Node.js/Express REST APIs, using MongoDB to store product, user, and order data
- Implemented user authentication and an admin dashboard for product, inventory, and order management
- Integrated Stripe and Razorpay payment gateways alongside cash-on-delivery to support flexible checkout flows
- Deployed the application on Vercel, making the storefront and admin panel publicly accessible

Divine Chats — Real-Time Chat Application – **Flutter · Dart · REST APIs** *2023*

- Engineered a cross-platform chat app with secure authentication, async REST API messaging, and local caching for low-connectivity use

AI Automation Agents – **n8n · LLM APIs · RAG** *2026*

- Developed an email summarization automation that processes incoming emails and generates concise summaries using LLM APIs
- Automated an email reply workflow for sponsorship and outreach emails using n8n and LLM-based response generation
- Currently developing RAG-based AI agents for knowledge retrieval and conversational automation

EDUCATION

MCA – Master of Computer Applications – **SPPU** *Ahilyanagar, MH | 2022 – 2026*

- All examinations completed; degree result awaited — expected 2026

BBA – Computer Applications – **Ahmednagar College, SPPU** *Ahilyanagar, MH | 2019 – 2022*

- Business Administration with Computer Applications — foundation in software engineering and business logic

OTHER EXPERIENCE

Badminton Coach – **Battledore Sports Academy** *Ahilyanagar, MH | Mar 2019 – Nov 2025*

- Coached players and ran tournament operations for 100+ participants, building leadership and communication skills
